

# PROHEIFER | Milk Replacer

- High performance milk replacer delivering excellent results
- Used by high calibre dairy farmers throughout Ireland
- Suitable for Holstein type replacement heifers looking for extra frame size and growth
- 26% protein, 16% fat
- Contains Cylactin® to aid gut health\*
- High Vitamin E levels to boost immunity status
- Blended with a range of dairy proteins to ensure good digestion and absorption
- Suitable for automatic feeding systems, once a day feeding systems and bucket feeding.

\*Cylactin is a probiotic feed additive. It stabilizes gut microflora and builds a better intestinal environment leading to healthier calves – Cylactin has shown to reduce digestive upsets and to increase daily weight gain in pre-weaning calves.

## Feeding Details

- One 25kg bag makes up 166 litres of milk (36 gallons). Usually 40 kg of powder needed/calf
- Typical feed rate at 150 grams/litre. (15% mixing rate). 5-6 litres/day = 750/900 grams of powder/calf/day. Feed 3 litres twice a day. Gradually build up a feeding rate to 150g over 3 to 4 days
- Feed warm at 38-40°C. Mix well using whisk etc
- Wean when calves are eating 1kg of meal/day. Typically at 8-12 weeks of age
- Ensure calves have access to fresh water, roughage and meal
- Can be fed once per day from 3-4 weeks

## PROHEIFER Details

- Protein: 26%
- Fat: 16%
- Ash: 6.5
- Fibre: 0.0%
- Moisture: 4.0
- Lactose: 44.6
- PH: 6.2
- Vitamin: A 25,000 IU/kg
- Vitamin: D3 5,000 IU/kg
- Vitamin: E 200 mg/kg
- Vitamin: C 50mg/kg
- Feeding rate: 150g/litre
- Bag size: 25kg (most others 20kg)
